I300ER - 300kg External Mortice Monitored Magnetic Lock

Product Description

The I300ER is an external mortice monitored maglock with a holding force of up to 300kg. It is part of the range of external electro-magnetic locks from CDVI offering high performance flexible locking solutions in the harshest environments.

Cased in high grade stainless steel and with a unique cover plate, all models are supplied with full fixing kits.

If a bracket is required for the installation, the [300-AMB](#) is recommended. This bracket is specially designed to host a 300kg maglock armature plate for sliding door installations.
